

# Software Test Engineer (m/f/d)

Immediately · Full time (40h/week) · Ottobrunn near Munich

# Software Test Engineer (m/f/d)

Immediately · Full time (40h/week) · Ottobrunn near Munich

**FAZUA, founded in 2013 in Munich, has developed an innovative, integrated and lightweight E-Bike Ride System aimed at pushing the limits of cycling mobility while also preserving the natural feel of a non-motorized bike.**

**Are you passionate about embedded systems and e-mobility? Join our R&D team at FAZUA!**

## ***YOUR TASKS***

- You design and implement automated tests for our drive system , BLE and desktop applications
- You support our testing team by designing and conducting automated and manual software tests
- You help us design and implement software tools for testing
- You work with the developers to ensure testability during the design phase

## ***YOUR PROFILE***

- You completed a technical (university) degree in electrical engineering, telecommunication, computer science or a similar field
- You know how to work with embedded systems
- You have experience with Python and C
- You will convince us if you have knowledge in CAN, I2C, BLE, ARM cortex-M, FreeRTOS, Git, Linux, Jenkins, Java (not a must though)
- You have a responsible, accurate and independent working style
- You are a creative and analytic thinker
- You speak fluent English and ideally also German

## ***YOUR BENEFITS***

- You will become part of a team that is passionate about developing and producing e-bike drive systems
- You get the chance to lease a bike of your choice from JobRad
- You benefit from flexible working hours and are able to work from home at any time, equipped with a laptop and headset
- You will always be greeted by our office dogs in the morning
- You live with us sustainability and a good mood

**Do you want to become part of the FAZUA team? Send your CV and a short motivation letter to [jobs@fazua.com](mailto:jobs@fazua.com).**

Your contact person: **Vanessa Roith**
