Quality Assurance Software Tester (m/f/d)

Immediately · Full time (40h/week) · Ottobrunn near Munich

Porsche eBike Performance

Quality Assurance Software Tester (m/f/d)

Immediately · Full time (40h/week) · Ottobrunn near Munich

At the headquarters in Ottobrunn near Munich, the Porsche eBike Performance GmbH develops and produces advanced drive systems for two brands: FAZUA with the focus on pioneering compact lightweights for agile e-bikes and under the brand name Porsche exceptionally powerful drive systems. FAZUA is a young, ambitious brand that has transformed the cycling industry in 2017 with its innovative drive system for agile, compact, lightweight (and extremely good looking) e-bikes. Since July 2022, we are a part of the Porsche eBike Performance GmbH. Our diverse, open-minded, ambitious (and fun) team is constantly seeking new, inspiring talents who will help us push boundaries to shape the future of e-bike technology.

YOUR TASKS

- Lead testing efforts on web and desktop software products and identify deficiencies during all phases of the software development live cycle.
- Implement and maintain the test management tooling and processes.
- Suggest solutions to identified product problems.
- Investigate product quality in order to make improvements.
- Plan, create, and manage the overall testing strategy within the department and align it with the company-defined strategy.
- Collaborate with the development team to ensure consistent project execution.
- Identify quality assurance process bottlenecks and suggest actions for improvement.
- Create and track quality assurance tasks over several projects, with estimations, time tracking, test management integration, and reporting.
- Collect quality data and identify key performance Indicators for product quality.
- Prepare and present reports and metrics to management.

Porsche eBike Performance

YOUR PROFILE

- 5+ years of experience in a software-related Quality Assurance or similar role
- 5+ years of hands-on experience working with software QA tools and implementing QA processes.
- Proven track record on successful commercial projects that spanned functional, integration, and end-to-end testing. Both manual and automated.
- Capable of setting up and managing complete testing framework, environment, and test code
- Proficient in troubleshooting and with test automation frameworks for web and desktop apps on varied ecosystems. Competence in project planning/tracking platforms (workflow and issue type customization, project set up, and 3rd party tools integration)
- Thinking strategically and critically, seeing the big picture
- Proactive, responsible and diligent, team player and mentor
- Full professional proficiency in English, German a plus

YOUR BENEFITS

- We are a diverse and international team of creative minds, passionate bike nerds, and progressive thinkers
- You will see your ideas taking shape quickly: bring in your thoughts, challenge the status quo and see innovations being implemented soon
- In Ottobrunn, right on the outskirts of Munich, our headquarters also feature nice rooms, a huge terrace, and the best colleagues
- Our location in the jaw-dropping Bavarian landscape offers a fantastic surrounding for rides. Take the chance to lease your dream bike on JobRad or simply grab one of our test bikes if available
- We try to live sustainability in everything we do – instead of just talking about it
- We are supportive of further education and foster ambitions of growth
- We believe in regeneration and agility. Therefore, we offer 30 days of vacation
