## Functional Team Lead Embedded Software (m/f/d)

Immediately · Full time 40h/week · Ottobrunn near Munich

# Functional Team Lead Embedded Software

## (m/f/d)

Immediately · Full time 40h/week · Ottobrunn near Munich

At the headquarters in Ottobrunn near Munich, the Porsche eBike Performance GmbH develops and produces advanced drive systems for two brands: FAZUA with the focus on pioneering compact lightweights for agile e-bikes and under the brand name Porsche exceptionally powerful drive systems. FAZUA is a young, ambitious brand that has transformed the cycling industry in 2017 with its innovative drive system for agile, compact, lightweight (and extremely good looking) e-bikes. Since July 2022, we are a part of the Porsche eBike Performance GmbH. Our diverse, open-minded, ambitious (and fun) team is constantly seeking new, inspiring talents who will help us push boundaries to shape the future of e-bike technology.

### *YOUR TASKS*

- You are responsible for the coordination of the cross-project communication within your team, as well as the communication to the management team in case of relevant topics.
- The continuous development of the functional organization of the team as well as its tasks in product development is part of your job.
- You are responsible for the development and improvement of work processes, tools and workflows.
- The definition, communication and achievement of team goals according to the company's objectives are your responsibility.
- Maintaining good team spirit through empathy and an open attitude should come easily to you.
- Building and coaching the necessary skills in the team is also one of your tasks.
- You support the technology owners with content-related, organizational or capacity-related challenges

# Porsche **eBike** Performance

## ***YOUR PROFILE***

- Completed technical studies in electrical engineering, telecommunication engineering, computer science or a comparable field of study
- At least 7 years of experience in the field of embedded software
- Experience in programming C in embedded systems
- Broad knowledge of ARM cortex-M, motor control, Git, CI/CD, Linux, Python, CAN bus, physics.
- You have an understanding of schematics
- Expertise in the entire embedded software development process from requirements to production maturity
- Your way of working is responsible, accurate and independent
- English is mandatory, German is a big plus. Other languages are always welcome

## ***YOUR BENEFITS***

- We are a diverse and international team of creative minds, passionate bike nerds, and progressive thinkers
- You will see your ideas taking shape quickly: bring in your thoughts, challenge the status quo and see innovations being implemented soon
- You can work remotely from home equipped with top hardware. Yet, in Ottobrunn, right on the outskirts of Munich, our headquarters also feature nice rooms, a huge terrace, and the best colleagues
- Our location in the jaw-dropping Bavarian landscape offers a fantastic surrounding for rides. Take the chance to lease your dream bike on JobRad or simply grab one of our test bikes if available
- We try to live sustainability in everything we do – instead of just talking about it
- We are supportive of further education and foster ambitions of growth within the company
- We believe in regeneration and agility. Therefore, we offer 30 days of vacation for you to fuel up and find new inspiration
