

# ASSEMBLY LINE OPERATOR (m/f)

Fulltime/Part-time

---

We are FAZUA. A young company on its way to revolutionize the eBike market. We created the innovative evation drive system especially for sportive needs. The unique, slim design and light weight of just 3,3 kg combines motor, battery and electronics in one drivepack. Therefore, bike manufacturers can create frames that integrate the drivepack elegantly and discreetly within the down tube.

We need you to continue our success story!

As our Assembly Line Operator, you will work in a completely new assembly line helping us with the montage of our eBike drive systems. You can show us your skills using hand tools for assembling, inspecting parts for defects (such us dents or scratches), laser marking, packaging, storage and other activities.

## What you should have:

- Experience working among manufacturing/production environments or will to have it.
- Familiarized with a high-speed production process and picky to detail in order to ensure quality of the product.
- High organizational skills.
- Ability to take action proactively.
- English/German are a must.
- High school diploma or equivalent is a pro but not a must. •
- **A great sense of responsibility (and humor).**

## These are your tasks:

- Assembly of the modules for our e-Bike drive systems
- Inspection of parts for defects (like scratches/dents).
- Testing of modules.
- Laser marking, packaging, storage and other activities.
- Workshop activities

## This is what we offer to you:

- Smooth learning curve
- Young and dynamic team
- Fair payment
- High Level of personal responsibility
- The possibility to grow with FAZUA and to develop your talents

If you are the perfect person for us send your CV with a motivation letter: **Karla Jaramillo, [jaramillo@fazua.com](mailto:jaramillo@fazua.com)**
