

Embedded Software Developer (m/f/d)

From June · Full time 40h/week · Ottobrunn near Munich

Embedded Software Developer (m/f/d)

From June · Full time 40h/week · Ottobrunn near Munich

FAZUA, founded in 2013 in Munich, Germany, has relentlessly pursued its goal of revolutionizing the E-Bike market. FAZUA has developed an innovative, integrated and lightweight E-Bike Ride System aimed at pushing the limits of cycling mobility while also preserving the natural feel of a non-motorized bike. At FAZUA we call it ENERGY RIDE SYSTEM: Natural riding. More energetic. #ENERGYWERIDE

YOUR BENEFITS

- You will become part of a team that is passionate about developing and producing e-bike drive systems
- You will always find someone that is ready for a short bike tour because we love (e)biking and can't get enough of it
- You can be sure that your ideas will be heard – no matter how crazy they are
- You are able to work from home at any time
- You get the chance to lease a bike of your choice from JobRad
- You live with us sustainability and a good mood

YOUR TASKS

- You design and implement features for our drive system, as well as for our production and testing machinery
- You support the hardware design
- You help external partners to follow our requirements
- You create and update documentation of the development team

YOUR PROFILE

- You completed a technical degree in electrical engineering, telecommunication, computer science or a similar field
- You have experience in working with embedded systems
- You know how to work with C
- You will convince us if you have knowledge in CAN, I2C, BLE, ARM cortex-M, FreeRTOS, Git, Linux, Python
- You have a responsible, accurate and independent working style
- You are a creative and analytic thinker
- You speak fluent English and ideally also German

Do you want to become part of our team? Send your CV and a short motivation statement to jobs@fazua.com.
